

AVOID THE EXPENSE AND DAMAGE OF LITIGATION

How to make sure that you and your franchisees avoid litigation

As more and more regulation is imposed on businesses and people are becoming increasingly litigious, the dangers increase for both franchisor and franchisees to become involved in legal problems.

Quite apart from the costs of litigation, there is nothing more wasteful of your time and damaging to relationships than litigation that could have been avoided. Even disputes that don't make it to the litigation stage are harmful and time consuming for all involved.

This workshop is about protecting you and your franchisees from the distraction and costs associated with prosecutions or legal disputes. By careful appraisal and assessment of potential risks, procedures can be put in hand to reduce them.
